Who We Are…and What We Do

The Coastal Flow Measurement family of companies provides gas and liquid measurement, analytical services, and software resources to the energy industries on a global scale. We utilize leading-edge technologies coupled with value-added service to produce accurate, efficient, and cost-effective results for our customers. Now in our fifth decade of operations, Coastal Flow’s broad industry experience, comprehensive technical resources, and time-tested expertise make us the recognized leaders in our field.

Coastal Flow’s commitment to provide personal service for every customer interaction is fundamental to our business philosophy. Service is our product…and Quality Service is our commitment. The family of clients which we typically serve includes:

- Producers
- Pipeline Companies
- Gatherers
- Processing Plants
- Midstream Operators
- Petrochemical Plants
- Refineries
- Utilities

The broad range of Coastal Flow’s activities, fully integrated through our innovative iMeasurement™ capabilities, allows us to customize combinations of services to effectively match our customers’ needs, requests, and budgets. Our products and services summarized below provide affordable solutions for a wide variety of industrial measurement needs.

iMeasurement™

- PiM™ (Production iMeasurement)
- CTiM™ (Custody Transfer iMeasurement)
- Electronic Liquid Measurement Data Management
- Orifice/Ultrasonic Meter Inspection & Calibration
- Natural Gas & NGL Analysis

Liquid Measurement

- Flow & Density Meter Proving, Calibration, & Repair – On-Site or Lab
- Prover Maintenance, Repair, & Parts – On-Site or Lab
- Prover Calibration by Waterdraw or Master Meter – On-Site or Lab
- ISO / IEC 17025:2005 Accreditation
- Meters, Pycnometers, Sales & Weights – Sales, Calibration & Service
- Flow Management Devices (Flow MD) Small Volume Provers
- LACT-Pro® Flow Computer – LACT, ACT, & Tank versions

Analytical Services

- BTEX Analysis
- Hydrocarbon Dew Point Determination
- Laboratory Supplies
- Greenhouse Gas Determinations

BirdDog™ Information Systems

- Advanced Remote Data Retrieval & Web-based Measurement/Monitoring
- Alternative/Complement to SCADA
- Alarm/Alert – Upset/Out-of-Range Conditions
- Secure 24x7 Web & Mobile App Access
- No Contracts or Software to Purchase
- BirdDog Web Report Warehouse
- BirdDog iMeasurement Online Query
- BirdDog Electronic Ticketing Service (BETS™)
- Aerial BirdDog Electronic Field Capture
- Aerial BirdDog Clearinghouse

Flow-Cal Software

- FLOWCAL Enterprise™
- FLOWCAL Client/Server™
- PROVEit™
- TESTit™
- CALCit™
- FLOWCAL University Training
- FLOWCLOUD™

Additional Services

- Gas Sales Verification
- Pulsation Testing
- Measurement Consulting
- Online Measurement Training Program
- Remote Measurement Analyst Services
- Gas Accounting & System Balance Reviews
- Online Measurement Equipment & Supplies
